EFA MANAGER ONBOARDING GUIDE

| Welcome to the EFA

Welcome, Manager! You are now in control of your club in the **Efootball Federal Association (EFA)**. Each week you'll be given fixtures to play against other managers in eFootball. Play your matches, submit your results, and climb the standings.

| Match Settings

- **Match time:** 10 minutes
- **Stadium:** Any (neutral preferred)
- **Injuries:** OFF
- **Substitutions:** 6 subs for both teams
- **Conditions:** Excellent for both players
- **Kit:** Always use your team's logo

| Gameplay Rules

- **No Smart Assist.** Smart Assist is NOT allowed in any match.
- **No cheating.** No exploits, glitches, or unfair tactics.
- **No quitting.** Quitting mid-match **counts as a loss**.
- **Connection drop.** If the network interrupts play, the match is **replayed** from the point shown on the next page. If a player refuses to replay, it **counts as a loss** for the player who doesn't replay.

| If the Connection Drops

- Find the minute the match was interrupted, then restart with the match time shown below. **Aggregate (agg) carries on** — played minutes are not replayed.

DISCONNECT	RESTART
0 minutes	Full match, from the start
10 minutes	Match at 9 minutes
20 minutes	Match at 8 minutes
30 minutes	Match at 7 minutes
40 minutes	Match at 6 minutes
50 minutes	Match at 5 minutes
60 minutes	Match at 5 minutes
70 minutes	Match at 5 minutes — first half only
80 minutes	Match at 5 minutes — first half only
90 minutes	No restart — match counts as finished

If the players cannot agree on the disconnect minute, replay from the start of the match.

| Match Week & Deadlines

- Fixtures are announced at the start of the week with your opponent's manager name.
- **Play your matches before Sunday.**
- **Deadline:** 23:30 — all matches must be completed by then.

| How to Play Your Match

- **1. Message your opponent.** Contact them on WhatsApp to arrange your match ("you have a match"). Manager names are listed in the announcements and fixtures group.
- **2. Create the matchroom.** If you're the home team, you create the matchroom and set up the match settings.
- **3. Kick off.** Use the exact match settings listed above.

| Submitting Your Result

- After the match, reply **1** at the welcome menu — or just send a screenshot of the final score to the EFA AI.
- Your opponent does the same. The EFA AI confirms and records the result.

| Backdoor

- If your opponent isn't responding, don't lose the match for nothing.
- Reply **2** at the welcome menu — or send "**backdoor**" — to the EFA AI when the backdoor window opens on **Thursday**. The backdoor is a **free win** awarded to you.

| Start a Conversation with the EFA AI

Message the EFA AI on WhatsApp and it replies with a simple numbered menu right away:

- Send a match result
- Opponent did not respond, or gave you the win
- Create an EFA account
- Check my backdoor applications
- Tournament applications
- Just reply with the number of what you need. Mid-flow, every prompt shows **1. Cancel / 2. Start again**, and on match lists type **CANCEL** or **START**.

| Create Your EFA Account

- Reply **3** at the welcome menu. The bot asks for the **username** you want (letters, numbers and underscores only).
- If the number you're texting from already has an account, the bot tells you and sends the login link instead.
- Done: the bot replies with your **username, password and login link**, plus the WhatsApp group invite. Your application stays valid for **7 days** while an admin assigns your team.

| Tournament Applications

- Reply **5** at the welcome menu to see open seasons with free (vacant) seats.
- Pick a season and the club you want to manage, then reply **1** to confirm.
- Admins review your application and you get a **WhatsApp notification** when a decision is made.

| Using the EFA AI — Submit a Result

- **1. Send a screenshot.** Reply **1** at the welcome menu — or just send a screenshot of the final score screen to the EFA AI.
- **2. Choose what to do.** The AI shows the score it read (e.g. "Arsenal 3-2 Everton") and asks: reply **1** to submit this score for the first time, or **2** to change a score that was already submitted.
- **3. Name the match.** Type it as "**Team A vs Team B**", e.g. "Arsenal vs Everton". Short names work too ("psg vs arsenal").
- **4. Pick the match.** If more than one match comes up, reply with the **number** of your match.
- **5. Confirm.** Reply **YES** when the AI asks to confirm, then answer the forfeit question (did the losing team forfeit before the game finished?) with **yes** or **no**.
- **6. Done.** "Result submitted!" plus your standings link. Your opponent submits the same score and the AI confirms it.
- **Submission window:** results are accepted for matches due today or up to 7 days back. A result for a future fixture is saved and **auto-confirmed on match day**.

| Reply Commands

- **SWAP** — scores or stats are on the wrong side, the AI flips them.
- **EDIT SCORE** — override the score (aggregate or replay). Then type the new score, e.g. 3-2.
- **check other date** — if your fixture was on a different day. Then reply with the date, e.g. "12 Jul", "July 12" or "2026-07-12".
- **fixtures / check fixtures / my fixtures** — see your fixtures for today and get your opponent's contact.
- **CANCEL** (or the "1. Cancel / 2. Start again" hint on info prompts; **CANCEL** or **START** on match lists) — start over any time.
- **START** — back to the welcome menu.

| Check Your Fixtures

- Send "**check fixtures**" (or just "**fixtures**" / "**my fixtures**") to the EFA AI any time to see your fixtures for today.
- If your number is saved on your profile, the AI shows fixtures for **all teams you manage** in one list, split into Scheduled and Confirmed.
- Reply with a **number** to get your opponent's contact card, or type a **date** (e.g. "15 Aug") to check fixtures for another day.
- If your number isn't on the system yet, the AI asks for your **team name** — reply with it. It may also offer to update the number you're texting from, so fixtures come straight to you next time.

| If the AI Can't Read the Screenshot

- If it replies "**I couldn't analyse the image**", send the screenshot to the group instead. It may ask for team names, a date, or a number — just follow its prompts.

| Backdoor — Opponent Not Responding

- If your opponent isn't responding, don't lose the match for nothing. The backdoor is a **free win** awarded to you. The backdoor window opens on **Thursday**.
- **1. Reply 2** at the welcome menu — or send "**backdoor**" — to the EFA AI.
- **2. Reply 1** to submit a new backdoor, or **2** to check your applications.
- **3. Send a screenshot** showing the opponent not responding.
- **4. Type the fixture.** e.g. "Arsenal vs Chelsea".
- **5. Reply "home" or "away".** Tell the AI which side you are. It records your application.

| Check Your Backdoor Applications

- Send "**backdoor**" and reply **2** — or reply **4** at the welcome menu — any time to see the status of your applications (Pending, Approved, Declined or Void).
