

EFA MANAGER

WEBSITE GUIDE

Efootball Federal Association

PLAY • COMPETE • REPRESENT

| Your Account

- Create your account on the **Register** page (username + password) or reply **3** to the EFA AI on WhatsApp. Your username is your identity in the EFA.
- Your number and details are shared across the site and WhatsApp — fixtures follow the number you registered with.
- **Forgot your password?** Ask the EFA AI to reset it.

| Logging In

- Sign in with your **username and password**. Browsing fixtures, results and standings works without an account.
- You need to be logged in for your own fixtures, your manager profile, notifications, polls and profile settings.

| Finding Your Way Around

- **Desktop:** a bar across the bottom of the screen — Home / Fixtures / Results / Standings.
- **Mobile:** Home / Fixtures / Results tabs at the bottom, plus the **More** menu for Hall of Fame, Rules, Profile, Notifications and Log in/Log out.
- Pages like Standings, Calendar, Teams and Polls are linked through the Home page cards and the More menu.
- The **bell icon** (top right) opens your notifications.

| Your Home Page

- Your upcoming fixtures for today, your latest results, a snapshot of the top of the table and a quick link to the calendar.
- The **View Standings** and **Fixtures** buttons jump straight to those pages.

| Fixtures

- **My Fixtures** lists the matches for the teams you manage, grouped by date with Today / Tomorrow labels.
- Each row shows the competition tag (**PL** / **UCL** / **EL** / **SC**), the matchday, your opponent and the match state (Scheduled / Awaiting / Full Time).
- Open a fixture to see the score, who is home and away, the **matchroom code** + who creates it, the submit-score options, a Banter Board and the disconnect rules.

| Playing the Match

- **Matchroom.** The home team creates the matchroom with the fixture's matchroom code. The away team joins it. The site shows exactly which side you are.
- **Coach's analysis.** When you open your own fixture you'll also see a suggested game plan — confidence, what to exploit and a recommendation.
- **Waiting reports.** If your opponent doesn't show, the site will show a Waiting Reports notice. Tie in with the **deadlines guide** for the exact window.
- Finished matches show full-time score plus a match screenshot and live match statistics.

| Submitting Results

- Submit your result by sending a **screenshot to the EFA AI on WhatsApp** — or from the fixture page.
- Your opponent submits the same score and the result is confirmed automatically.

| Results

- **My Results** shows your win / draw / loss summary and every result, colour-coded by outcome.
- Open a result to see the full-time score, the match statistics (possession, shots, passes and more) and the match screenshot.

| Standings

- Pick the **Competition** with the dropdown (or the switcher on mobile) — every active league and cup appears there.
- League mode shows **# / Team / P / W / D / L / A / GD / PTS**; group stages show each group's own table with the teams that qualify marked.
- The **top 3** are highlighted in gold, and coloured zones follow each competition's rules.
- Click any team to open its page.

| Teams & Managers

- Every team has a page: logo, manager, playstyle DNA, recent fixtures and results, season stats, their head-to-head record and trophy cabinet.

| Finding the Managers in the EFA

- There isn't one single "managers list" page — every fixture and team links to the managers, so you're always one tap away from the person you need.
- **From any match.** Tap your opponent's name on a fixture to open their manager profile and send them a WhatsApp message.
- **From a team page.** Each team shows "vs @manager" with a Message button that opens WhatsApp using the manager's saved number.
- **From the calendar.** The calendar shows who plays whom each day — click through to the fixture and from there to the manager.
- **From a manager profile.** /managers/{name} shows career stats (P / W / D / L, win rate), their clubs, and management history — a single place to see who manages what.

| Updating Your Contact Number

- Manager contact cards are powered by the phone number on your profile. Keep it updated on the website (or tell the EFA AI) so opponents can always reach you.

| Birth of a Fixture Week

- Fixtures are released by the admins, then you coordinate a time with your opponent via the matchroom code on the fixture page. See the **deadlines guide** for when each match is due.
- Results come from both clubs submitting the same score — automatic, no admin needed.

| Calendar

- A month view of every match, with the score shown for days that are finished.
- Scope it to **my** fixtures or **all** fixtures, and browse months with the arrows.

| Polls

- Open polls list tournaments with vacant (open) seats — usually near season start.
- Apply for the team you want from the poll page, or withdraw your application before it closes. Admin decisions come through as notifications.

| Hall of Fame & Rules

- **Hall of Fame.** Official records — most trophies, most league titles and a full per-season archive of winners.
- **Rules.** The official EFA Rule Book: match rules, abandonment rules, the disconnect table, the anti-forfeit rule and matchroom instructions.

| Notifications

- The bell collects reminders — fixtures due today, results confirmed, backdoor decisions, and updates on your applications.

| Your Profile & Settings

- **Profile picture.** Change it right from your profile — upload a photo, crop it, save.
- **Phone number.** Edit it on the site (country code + number) — your contact card updates everywhere.
- **Theme.** Personalise the look: pick a preset or upload a custom background image.
- **Change password.** In profile, under Security — enter your current password first.
- **Apply to a season.** See open tournaments with vacant seats and apply straight from your profile.

| Your Number & WhatsApp

- The bot links everything to the phone number you text from. If it ever changes, update it on the website or ask the EFA AI to sync it — your fixtures follow the new number.

| How Tournaments & Leagues Work

- The EFA runs several competitions inside one season (e.g. 2025/26). Your club — and sometimes more than one club — is entered into several at once: a league plus cups.
- Every match carries a competition tag (**PL** / **UCL** / **EL** / **SC**) so you always know what you're playing for.

| Leagues (Premier League)

- A **round-robin**: every club plays every other club home and away.
- The league table on the Standings page decides the order — points first, then goal difference.

| Knockout Cups (UCL, Europa)

- Clubs are drawn into **groups** that play a mini round-robin; the top qualifiers advance to the knockouts.
- Knockout ties are **two-legged** — the aggregate score over both legs decides the winner.
- If aggregate and away goals stay level, the tie goes to penalties.

| Other Competitions

- **Super Cup**. A single final between the season's top winners.
- **Friendlies**. Optional matches used to fill free dates.
- **Vacant seats**. If a club has no manager, it **auto-forfeits 0-3** until a manager joins through an application (Polls / apply on profile) or admin assignment.
